Weekly update on Covid-19 from Realm

For Advocates, Friends and Families

We have continued this week to offer services that are essential.

This means that we are continuing to follow the protocols given to us by the 

The Province of BC , CLBC , worksafe bc , and listening to the recommendations of the  and the City of Cranbrook  to ensure we are doing everything that we can to help flatten the curve and fight against Covid-19 .

We know that it has been really tough to have such changes in your schedules  and that

everyone is missing their friends, groups and outings  but we need to keep encouraging you to be doing all the things that are being suggested to keep everyone safe from this virus. We DSPs at

 are working to provide checkins- this can be by , ,  or sometimes a visit to

your home  for a quick  , bring by a coffee  or make a delivery  for projects or activities. Advocates living on your own that need support with shopping & medications ,  and appointments  we are still offering this in a delivery type style. We are doing these things for

the purpose of lessening the chance of sharing this virus or lessening transmission.  Building is Closed, except for the DSP's that are still providing essential service. Keep taking care- Kerry 😊
