Re: information we all need to know at this moment

We have heard that we will be moving into the 2 stage. Many people have heard the the Premiere and Dr. Bonnie Henry are talking about the restrictions changing about the 19<sup>th</sup> of May. This is exciting but also serious at the same time.

The 5 important things that you need to know right now:

1.  will keep holding the line \_\_\_\_\_ like we have with essential services like  until the end of May.
2.  Schedules will stay as they have been with contactless deliveries and check-ins at the door  , maybe a coffee brought to your place  or a quick  , and of course  iPad  contact.
3. Going forward, we will be making appointments  talk with you about the next stages and how we will be going forward for you,  your  friends and fellow advocates and the DSP  so that we can work together in the safest ways.
4. During the next few weeks, the essential service team will be working to prepare for the next stages at  . This will mean looking at re-arranging the building, looking at the group assignments and how they will go forward as well as preparing new schedules  for service.
5. We are working hard to listen to  Premiere,  Public Health,  Work Safe BC and  CLBC to make sure that we are following all the suggestions, protocols and rules for being safe against the Covid-19 virus  .

We ask that you remain patient and have trust that we are working hard to be prepared for the lifting of some of the restrictions. **Remain calm, be kind and we will get through this together.**
